Divebomb Records 2016 - Killer 80's US Power Metal DCD - FOR FANS OF: LEATHERWOLF, SHOK PARIS, OMEN, LIZZY BORDEN
Actual vocalist of Banshee is George Call (ASKA/OMEN)

Rising from the Midwestern hard rock scene of the mid-'80s, BANSHEE was a band that balanced traditional heavy metal with melodic hard rock with winning results. Featuring former members of such underground Kansas City groups as Granmax and Frodo, BANSHEE was fronted by Tommy Lee Flood, a vocalist that many have compared to Ronnie James Dio in his range and power. A few years after forming, BANSHEE self-released their Cry in the Night EP, selling so many copies independently that both Metal Blade and Atlantic Records courted the young act. BANSHEE ended up signing on with A&R legend Jason Flom at Atlantic Records, but not before licensing the EP to Metal Blade, in turn bringing international attention to the group. 1989 found the quartet releasing their debut album, Race Against Time, an 11-song collection that focused on their more melodic tendencies. Despite MTV's Headbangers Ball giving the band's "Shoot Down The Night" video healthy airplay, behind-the-scenes drama lead to Banshee being dropped by Atlantic Records. The group would break up in 1993 after releasing their Take 'Em By Storm that year on their own Snowblind label. Now, over 30 years since BANSHEE formed, Race Against Time + Cry In The Night 2 CD set with each release pressed on its own CD. The remastered collection will feature archival BANSHEE photos from throughout their career. In addition, there's a new interview with guitarist Terry Dunn done by NoEcho.net's Carlos Ramirez especially for this reissue. With both titles long out of print.

DEMON BITCH - Hellfriends (NEW*US METAL*HEATHEN'S RAGE*JAG PANZER*C.UNGOL) - 13 €

Skol Records 2016 - After their great Demo Compilation now this is their Debut album, amazing US True Heavy Metal far fans of early JAG PANZER, HEATHEN'S RAGE, CIRITH UNGOL, BROCAS HELM, early AGENT STEEL. DEMON BITCH is a traditional Heavy Metal band based out of Michigan, USA, with a taste for the strange and obscure realms of the genre. The history of the band dates back to 2011, when three longtime friends: Mars Weston, Logon Saton, and Samuel Ceckowski, came forth to cement their breed of Heavy Metal with their self titled 3-song demo, which was released in 2012. The line-up was promptly solidified with the integral addition of the second guitarist, Solon Saton, which allowed the group to play various live shows, and a US East Coast tour in 2013.

In 2014, the complete line-up came forth with a follow-up to their demo, an EP titled "Death Is Hanging..." which was released by Dying Victims Productions in Europe and Evil Prevails Productions in Indonesia. The next, and greatest chapter yet is their debut full-length entitled "Hellfriends", which is to be released in June of 2016. A genuine love for the Hard and Heavy, from 80's legends of the underground such as MERCYFUL FATE, SATAN and ANGEL WITCH, to 70's Progressive and Hard Rock, provided a foundation for the band to stand upon, but it's the intangible inspiration of fantasy, camaraderie and the unknown, which sculpts the rare sounds by these Hellfriends of Demon Bitch.

Napalm Records 2016 - New masterpiece by the German Thrash Metal force in the Bay Area Way ! A true neck-breaking circle pit soundtrack!

It's only been five years since Southern Germans Dust Bolt won the W:O:A Metal Battle 2011 – five years the band used to transform themselves from hot newcomers into national thrash heroes with their debut Violent Demolition! These Bay Area aficionados are ready to drop their third full length in shape of Mass Confusion now, and relentless touring plus constant fine-tuning of the typical Dust Bolt sound have finally paid off: the old school songwriting is focused and free of ballast weight, yet despite all the rage and aggression there is still plenty of breathing space for melodic guitar work, gang shouts and ten ton grooves.

EXORCIST - Nightmare Theatre DCD (NEW*SLIPCASE ED.*PILEDRIIVER*WITCHERY*BATHORY*VENOM) - 15 €

High Roller Records 2016 - Slipcase Edition DCD - originally released on Cobra Records back in 1986

HARD KNOX - Psycho's R Us (NEW*LIM.ED.*US HARD ROCK*KIX*D.TOYS*BROKEN TEETH) - 14 €

Divebomb Records 2016 - Awsome US 80's Melodic Metal/Hard Rock - FOR FANS OF: DANGEROUS TOYS, SPREAD EAGLE, BROKEN TEETH, DIRTY LOOKS, KIX

Drawing from a wide range of influences that spanned from Led Zeppelin and Bad Company, to early AC/DC and the Scorpions, and even further to Fates Warning and Savatage; Salt Lake City, Utah's HARD KNOX got its start when vocalist Therron Arrington and guitarist Chris Gigliotti began recording early tracks in—of all places—a closet in Chris' mother's house.

The quintet grew to achieve local notoriety—helped along by opening slots for acts like David Lee Roth, Great White, Mr. Big, Slaughter, and even Pantera (among many others)—but after interest from Atlantic Records failed to result in a suitable recording contract, HARD KNOX decided to strike out on their own to self-release a full-length album, Psycho's R Us, in 1993.

The 10-song release carried a sound representative of the changing landscape of hard rock at the time—Skid Row meets Mother Love Bone; or, as the band describes, equal parts Dirty Looks, Kix, and Alice in Chains. HARD KNOX promoted the album by plastering the town with full-size posters to support a continued onslaught of live gigs. However, the hard rockin', hard partyin' lifestyle eventually caught up with them, and the band self-destructed before they were able to capitalize on the momentum they had built.

Out of print for decades and now an increasingly rare collector's item (once cited in VH1's list of the "100 Rarest Hard Rock CDs"), original copies of the album have sold on eBay for astronomical prices of more than \$300. After years of trying, Divebomb Records is now thrilled to finally present this deluxe reissue of Psycho's R Us—including HARD KNOX's original four-song demo (one track from which also appeared on KBER 101's The Best of Rock From the Wasatch Front compilation CD)—fully remastered by Jamie King at The Basement Recording; and including a brand new interview with vocalist, Therron Arrington, alongside archival photographs. For the fans, by the fans!

After their highly acclaimed "Night Sacrifice (Demo MMXIII)" three years ago, here is the debut full-length of LUCIFER'S HAMMER, "Beyond the Omens."

With confidence and energy bursting from every glorious note, "Beyond the Omens" continues the magic these Chileans created on their celebrated demo, but LUCIFER'S HAMMER take it one step further with a more polished sound that enables these anthems to ring proud and true. Like a time-warp to 1984, on both sides of the Atlantic, this is classic HEAVY METAL that combines crushing energy, night-time atmosphere, moody melodicism, and HUGE choruses that would be ruling the radio if it was indeed 1984. But be aware that this isn't pantomime: LUCIFER'S HAMMER are the real deal, and they hammer home the fact with a vengeance, leaving an indelible, long-lasting impression on the listener.

Before it's over, you'll be enthralled to the secret "Beyond the Omens" and these nine songs simply won't leave your head! Bolstered by a clear yet full-blooded production and cover art that tells a thousand words of the story, "Beyond the Omens" is guaranteed to be a classic debut, and forceful point of entry for LUCIFER'S HAMMER to continue their dominance.

Divebomb Records 2016 - 80's Killer Tech/Thrash Metal - Deluxe DCD Anthology Rerelease incl. Bonus Tracks !

FOR FANS OF: SACROSANCT, DYOXEN, MANDATOR, GAMMACIDE, APOCALYPSE

Formed in Heesch, Netherlands during the autumn of 1983 by five teenagers inspired by bands like Anvil, Raven, Iron Maiden, Saxon and Judas Priest, MESSINA got its start under the name of ASSASSIN. Six months later, the group made its live debut in the spring of 1984 and never looked back, releasing three demos in three consecutive years—Mission Completed (1986), Cease Fire (1987), and Murder in the First Degree (1988). Due to confusion with the German band of the same name, and just prior to their first official appearance with two tracks on the Metal in Rocks Vol. I compilation in 1988, ASSASSIN settled upon the mysterious new name of MESSINA, after a town on the island of Sicily, Italy. The following year, they issued the Live! demo—showcasing the raw energy of their increasingly thrash-based attack, drawing inspiration from more aggressive acts such as Metallica, Sepultura, and Slayer.

Finally, the years of hard work practicing and playing gigs paid off, as MESSINA signed on with Inline Music for the release of their nine-song full-length album, Terrortory (1990). Unfortunately, their luck would soon change, as the label cancelled a German tour, and the band eventually lost its lead vocalist—the remaining members deciding to remain friends but go their separate ways before the end of 1993. But now, more than 25 years later, the music lives on, two-CD set collecting MESSINA's entire discography—including all three ASSASSIN demos—fully remastered by Jamie King at The Basement Studios; and including an in-depth, band-penned biography and loads of archival photographs.

For Fans of Savatage, Fates Warning, Queensryche, Leatherwolf and Fifth Angel

Shadowcast comes from Dayton, Ohio and delivered a fine mixture of US Melodic Metal with Power/Progressive touches back on the 80s.

Includes the renowned first demo, "Necropolis". Local station WCWT reviewed and compared them to Fates Warning, Queensryche, Leatherwolf and Fifth Angel. "Private Reality" was featured on Clear Channel's WAZU and had a feature interview on their local music segment. This is the best tribute for Shadowcast to see both demos first time on CD. This band earned a loyal following and packed the house by playing hard hitting originals mixed with metal classics. Digital remastered by Randy Davis (Shadowcast, Wrathskeller, Sartori), artwork by Cadies Art (DragonForce, Doro).

Stormspell Records 2016 - Limited edition to 500 hand-numbered copies, with restored original artwork, on-disc pit-art, 3 D - Cover, 12-page booklet with liner notes by Anton Garcia and Andrey Sazonov, info, and archive photos. Cult Soviet thrash metal for fans of Anthrax, Exodus, Megadeth, Accuser, Metallica,

SHAH, one of the most influential 80s thrash metal bands to emerge from the Soviet Union, and the most famous by far, touring successfully West Germany on multiple occasions during late 80s and releasing an album on major western label. Escape From Mind originally was recorded as demo during winter 1987-1988 and self-released on limited tape pressing. In 1993, the band re-recorded the best 4 songs from demo 1987, plus 4 more previously unreleased demo songs from their archives, for what became the "Escape From Mind" album

It was released in 1994 by Moroz Records on cassette tape format only. Unfortunately the label misplaced the final master and pressed the cassettes from previous, unmastered version with mixed-up track list. So not only we have this album released officially on CD for the first time ever, but also in its proper form.

SUICIDAL ANGELS - Division Of Blood / Digipak CD + DVD (NEW*GRE THRASH METAL*EXODUS) - 16 €

NoiseArt Records 2016 - Limited first Edition inclusive bonus DVD (Live Concert + Tour Documentary)

Thrash Metal for fans of Kreator, Death Angel, Exodus

When guitarist and vocalist Nick Melissourgos founded the band in 2001 and pushed it to become Greece' Thrash Metal export hit number one, he was just 16 years old. Having only released three highly acclaimed demos and the EP »Bloodthirsty Humanity«, SUICIDAL ANGELS already were a renowned insider tip within the European scene. With their second bone splitter »Sanctify The Darkness«, released in 2009 by Nuclear Blast Records, they finally managed the jump into worldwide spotlight. In the same year, the SUICIDAL ANGELS secured the renowned Rock the Nation award for themselves, in 2010 they played their first complete European tour along Belphegor, Kataklysm and Darkest Hour. For their third studio album »Dead Again«, also in 2010, they combined forces with Noise Art Records which was the foundation for a long-time, fantastic cooperation. The album was followed by successful festival shows and a tour with Thrash legends Kreator, Exodus and Death Angel. SUICIDAL ANGELS haven't reached their peak yet, although the two milestones »Bloodstone« and »Divide and Conquer« sawed themselves into the Top 100 of German album charts.

Napalm Records 2016 - 4 pages Digipak CD incl. 1 Bonus Track

Berlin based Krautgaze brimming with melancholia while casting off genre clichés with a grin and an artfully nostalgic twist.

It is hard to imagine that something called Krautgaze could grow up in any other place than Berlin. In its glittering darkness, the city is a perfect breeding ground for a band like Suns of Thyme: The five-piece (masterfully) crashes together space rock, shoegaze, psych, death rock, and Velvet Underground / KING CRIMSON on its (forthcoming) sophomore album Cascades. This ode to freethought is brimming with melancholy and a nonchalant greatness that will (comfortably) settle in behind your eyes - Suns of Thyme casts off genre clichés with a grin and an artfully nostalgic twist.

Napalm Records 2016 - LTD First Edition 6 Page Digipack & Bonus DVD (Live At Sweden Rock Festival 2015). A Heavy Doom Rock masterpiece full of enchantment, profundity and horror!

A Heavy Doom Rock masterpiece full of enchantment, profundity and horror!

Judges and cardinals don red robes. Edgar Allen Poe enshrouded death in deepest red. And now doom metal itself proudly wears the most sinful color of them all when Swedes The Order Of Israfel unleash their second longplayer Red Robes! The band's first steps might have been heavily influenced by genre icons such as Cathedral, Pentagram and Witchcraft, but the fourpiece has firmly established its very own brand of slow-motion goodness in 2016: folk and the NWOBHM play a big role in The Order Of Israfel cosmos, but these guys also have a knack for Thin Lizzy-isms. The result is a wondrous, mystical piece of art featuring unforgettable vocals and ten-ton riffing that will haunt you for aeons!

TYFON'S DOOM - Yeth Hound (NEW*FIN HEAVY METAL*LIM.500*NWOBHM*M.FATE*M.CHURCH) - 13 €

Gates of Hell Records 2016 - CD Limited edition of 500 copies

TYFON'S DOOM is a new one man band from Finland that already drew quite some attention with its obscure and unpolished style of traditional Heavy Metal.

Tommi Varsala, the man behind this project, captured the original spirit of metal like only a few other bands nowadays.

Though you can hear a lot of influences in his music, such as Iron Maiden, Merciful Fate, early Metal Church and more, TYFON'S DOOM sounds incredibly fresh and personal.

With a brilliant songwriting, great guitar work and gritty vocal style, Tyfon's Doom recreates a feel that is hard to come across these days.

Additionally, a Japanese-style OBI-Strip will be included. CD limited to 1000 copies worldwide! Stay away from BOOTLEGS! Support the band and official releases!!

Wargasm's second album, originally released in 1993, is finally available again! It's 100% official and has been newly-remastered by guitarist Rich Spillberg. These Bay Area aficionados are ready to drop their third full length in shape of Mass Confusion now, and relentless touring plus constant fine-tuning of the typical Dust Bolt sound have finally paid off: the old school songwriting is focused and free of ballast weight, yet despite all the rage and aggression there is still plenty of breathing space for melodic guitar work, gang shouts and ten ton grooves.

MANILLA ROAD - Underground (NEW*LIM.ED.500 BLACK VINYL*US EPIC METAL 1979) - 15 €

High Roller Records 2016 - Limited Edition 400 x bone, 500, black vinyl, 425gsm heavy cardboard cover, cardboard insert - this is a Black Vinyl Copy

The mini-album »Underground«, issued via High Roller Records, marks Manilla Road's first trip into a professional recording studio. The »Underground« demo contained the three songs "Far Side Of The Sun", "Manilla Road" and "Hermann Hill". Those were originally recorded way back in 1979 (even before »Invasion«). The fourth song "Flakes Of Time" has been added from a rehearsal tape.

Manilla Road are a legend in their own right. The band that time forgot! Without the shadow of a doubt one of the most innovative American metal bands of all time. In the late 1970's, Manilla Road practically single-handedly invented what is today called Epic Metal. Hailed as US Metal pioneers (their debut album »Invasion« was released on their own Roadster label in 1980), the band from Wichita (Kansas) has set the trend for the current renaissance of Epic Power Metal (despite being at best ignored and at worst derided by mainstream metal magazines around the globe for some 25 odd years).

Engel at his Temple Of Disharmony.

MAUSOLEUM GATE - Metal And The Might 7" (NEW*LIM.BLACK V.*OBSCURE HEAVY METAL*WARLORD) - 8 €

Cruz del Sur Records 2016 - Limited Edition 7" in Black Vinyl

With an unusual offering which incorporates elements of late 70s proto-metal and a genuine, breathtaking affiliation to the spirit of the NWOBHM, MAUSOLEUM GATE has soon raised to the status of cult-band, a condition which brought them to play prestigious German Keep It True festival in 2015.

"Metal and the Might" is MAUSOLEUM GATE's new release, two new songs to please all their fans and keep the flame alive. Reflecting once more the eccentricity uniqueness of these Finnish guys, the title track is a straight in your face metal offer, as was "Mercenaries of Steel" on their debut album. B side is occupied for over 6-minute by the fantastic "Demon Soul", echoing more of their progressive quintessence. For Fans of Warlord, Relic, Cirith Ungol, Brocas Helm, Iron Maiden, Virtue, Cloven Hoof, Scorpions, Uriah Heep

Having received great reviews for the debut album (that now is considered among the classic post-NWOBHM releases) Millennium quickly set about writing and recording new songs. The demo songs for the second album were recorded over three different sessions during 1985 and the line-up was Mark Duffy (vocals), Mike Muskett (guitar), Pete McArdle (guitar), Dave Price (bass), Steve Mennell (drums) and Dave Hardy that replaced Pete McArdle on guitar on the last recording session.

Unfortunately, Millennium didn't secure a record deal for another release and these recordings were locked in a closet for the last 30 years... until now.

This, their 2nd album is still better than their absolute great Debut Album ! Better Riffs, more Metal, better melodies - A real must have !
For Fans of Blitzkrieg, Ostrogoth, Saxon, Tygers of Pan Tang

NERVOSA - Agony (NEW*LIM.BLACK VINYL*ALL FEMALE BRA THRASH METAL*SLAYER*KREATOR) - 17 €

Napalm Records 2016 - Limited BLACK Vinyl incl. Bonus Track. 2nd Full-Length Album from the Brazilian All Female Thrash Metal Band.

Brazil's meanest power trio has returned: Nervosa indulge in relentlessly raw all-female thrash metal on their second studio album Agony that almost effortlessly merges the energy of the glorious 80s with the refined aggression of this millennium. Played even more on point and precise than debut Victim of yourself (2014), it definitely enriches the Nervosa sound having transferred the production to the USA: the South American riff tornado is in flawless shape! Nods to Kreator, Slayer etc really are just the tip of the iceberg here, and the Brazilian squad continues to drag its fans down into a malicious maelstrom full of old school darkness.

THE ORDER OF ISRAFEL - Red Robes DLP + DVD (NEW*LIM.BLACK V.*WITCHCRAFT*THIN LIZZY) - 22 €

Napalm Records 2016 - Limited Edition BLACK 180g 2-Vinyl incl. Bonus Track + Bonus DVD (Live At Sweden Rock Festival 2015)

A Heavy Doom Rock masterpiece full of enchantment, profundity and horror!

Judges and cardinals don red robes. Edgar Allen Poe enshrouded death in deepest red. And now doom metal itself proudly wears the most sinful color of them all when Swedes The Order Of Israfel unleash their second longplayer Red Robes! The band's first steps might have been heavily influenced by genre icons such as Cathedral, Pentagram and Witchcraft, but the fourpiece has firmly established its very own brand of slow-motion goodness in 2016: folk and the NWOBHM play a big role in The Order Of Israfel cosmos, but these guys also have a knack for Thin Lizzy-isms. The result is a wondrous, mystical piece of art featuring unforgettable vocals and ten-ton riffing that will haunt you for aeons!

TRANSILVANIA / KAFIRUN - 7" Split EP (NEW*LIM.500 BLACK V.*BLACK/THRASH METAL KILLER) - 9 €

Destruktion Records 2016 - Ancient Blackened Metal Spirit!

Transilvania delivers a brand new hymn of pure blackened Thrash Metal with cold melodies (in the vein of Godkiller, Dissection, Triumphant and early ABSU) and a dark, medieval atmosphere of forgotten ancient times! Next to their brothers "Triumphant" & "Kringa", one of the most outstanding Metal Acts from Austria!

Kafirun: Every soul shall taste death! One of the very few real and pure Black Metal Bands from Canada (...and the rest of the world)!

In the sea of all these fucked up self-titled "Black Metal Underground"-Hipsters, Kafirun are definitely one of those who deserve to be named as the one, who stands above all this scum and follows the traditional path of the glorification of death! Unleash the Chaos!!! *This Split-EP is highly recommended for any fan of real dark and evil metal, cold and atmospheric as it used to be in the very early 90s!! (This is no trendy "ritual,/occult"-shit!! Only pure Ancient Metal Spirit, eternally!)*

Gates of Hell Records 2016 - Limited edition of 300 copies hand-numbered on Black VINYL !

TYFON'S DOOM is a new one man band from Finland that already drew quite some attention with its obscure and unpolished style of traditional Heavy Metal.

Tommi Varsala, the man behind this project, captured the original spirit of metal like only a few other bands nowadays.

Though you can hear a lot of influences in his music, such as Iron Maiden, Mercyful Fate, early Metal Church and more,

TYFON'S DOOM sounds incredibly fresh and personal.

With a brilliant songwriting, great guitar work and gritty vocal style, Tyfon's Doom recreates a feel that is hard to come across these days.

SUNS OF THYME - Cascades (NEW*LIM. DLP BLACK VINYL*SPACE ROCK*KING CRIMSON) - 20 €

Napalm Records 2016 - Limited BLACK 180g 2-Vinyl Gatefold incl. Bonus Track.

Berlin based Krautgaze brimming with melancholia while casting off genre clichés with a grin and an artfully nostalgic twist.

It is hard to imagine that something called Krautgaze could grow up in any other place than Berlin. In its glittering darkness, the city is a perfect breeding ground for a band like Suns of Thyme: The five-piece (masterfully) crashes together space rock, shoegaze, psych, death rock, and Velvet Underground on its (forthcoming) sophomore album Cascades. This ode to freethought is brimming with melancholy and a nonchalant greatness that will (comfortably) settle in behind your eyes - Suns of Thyme casts off genre clichés with a grin and an artfully nostalgic twist.

WARGASM - Why Play Around? (NEW*LIM. 175 BLACK V.*US POWER/THRASH METAL CLASSIC) - 22 €

The CRYPT 2016 - Limited Edition of 175 copies in Black Vinyl

US Thrash legends WARGASM! One of the most underrated bands from the late 80's, Wargasm had a unique sound unlike any of their peers. Often referred to as a 'Thrash Metal' band, and their music does contain elements of thrash, but the band has always viewed its music as a hybrid of thrash, traditional metal and the NWOBHM.

The band recorded their debut album, "Why Play Around" on PROFILE records in 1987. Due to personnel changes within their label's management, the album was not released until 1988, and never got the promotion it deserved. We hope to change this now with this amazing reissue LP.

Presented in a glossy gatefold jacket, this amazing vinyl is designed after the original 1988 Profile release, featuring original cover artwork, taking elements from the original layout with attention to detail, even down to the logo and typeface for a touch of nostalgia. Also included are tons of unpublished classic band photos, flyers and brand new liner notes from original founding member Bob Mayo.

Additionally, lyric insert / album cover mini poster will be included.

MAGAZINES

DEAF FOREVER #12 (NEW*GER METAL MAG*FATES WARNING*MGLA*POSTER DESASTER/DEMON) - 6 €

DEAF FOREVERS Twelve! Liebe Headbangerinnen und Headbanger! Was für ein Zufall: Die Prog-Metal-Götter FATES WARNING, die noch vor wenigen Wochen beim Keep It True abgeräumt haben, veröffentlichen rechtzeitig zu unserer zwölften Ausgabe ihr zwölftes Studioalbum und gewannen damit souverän unseren Soundcheck!

Der Titelheld unserer neuen Ausgabe hingegen werkelt noch am Studiodebüt seiner neuen (Zweit-)Band: Die Rede ist von Bolt-Thrower-Frontmann Karl Willetts und MEMORIAM. Wie er Frank Albrecht exklusiv verriet, dürfen wir uns auf ein prächtiges Death-Metal-Geschoss freuen. Das wundert uns nicht! MGLA sind die derzeit wohl populärste Black-Metal-Band außerhalb des Mainstreams. Allerdings weiß man kaum etwas über die Polen. Bislang? Bandkopf Mikolaj Zentara gab uns ein umfangreiches Interview, und natürlich kommen auch brisante Themen zur Sprache.

Was passierte eigentlich in Europa ? egal ob in Belgien, Holland, Frankreich, Polen oder in der DDR ? als Ende der Siebziger die New Wave Of British Heavy Metal ausbrach? Diese Frage und unzählige Antworten sind Gegenstand unseres großen, 20-seitigen (!) Specials über den European Metal von 1979 bis 1983. Freut Euch auf Legenden wie Heavy Load, Sortilège oder Ostrogoth!

Für Himmelstein und Konsorten ist es DIE Reunion des Jahrzehnts: Die Rock'n'Roll-Chaoten THE HELLACOPTERS sind (zunächst einmalig) wieder auf der Bühne vereint, werden aber hoffentlich nicht nur ihren Fans beim diesjährigen Sweden Rock Festival einheizen.

Weitere Interviews haben wir geführt mit Denner/Shermann, Vardis, Katatonia, Omen, Dark Funeral, Death Angel, Kvelertak, Cobalt, Vulture, Flotsam And Jetsam, Gojira, Rebaellun, Sanzu, Q5, Wytch Hazel, Bat, Illdisposed, Vidargängar oder Malokarpatan. Eine Vorstellung neuer UK-Metal-Bands in Form eines Manuel-Trummer-Specials ist ebenso ein Highlight dieser Ausgabe wie ein Überblick über das Schaffen von Captain Beyond sowie unsere Rubriken Under A Funeral, Moon, The Dungeons Are Calling, Forgotten Jewels und Maniac der Ausgabe.

Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen diesmal das Keep It True, Acherontic Arts, Roadburn sowie das Black'n'Thrash Inferno. Massenhaft Tonträger-Reviews sind selbstverständlich, und zwei kultige Poster spendieren wir Euch ebenfalls: Beglückt Eure Mitbewohner mit Demons - Night Of The Demon und Desaster. Don't you know it's the night of the demon When spirits run high!
